تقديم من سيادة الرئيس محمود عباس "أبو مازن"  
رئيس السلطة الوطنية الفلسطينية

يعتبر التعداد العام للسكان والمساكن والمنشآت ركناً أساسياً من أركان النظام الإحصائي الرسمي في أي دولة، حيث يأتي تنفيذه خلال عام 2007 استحقاقاً قانونياً وتنموياً ووطنياً وسيادياً، ويمثل تنفيذه لبنة أساسية في عملية بناء الدولة وإرساء أسس التخطيط السليم بمعايير علمية نظراً لما يوفره من إحصاءات دقيقة وتفصيلية لكافة نواحي الحياة، ويساهم في بناء الدولة الفلسطينية وإنجاز الاستقلال السياسي والاقتصادي والاجتماعي، وتحقيق التنمية.

لقد جاء تنفيذ هذا المشروع الوطني الكبير في ظل ظروف غاية في التعقيد على مختلف الأصعدة، مما جعل تنفيذ التعداد مهمة صعبة تعترضها الكثير من التحديات والأخطار، إلا أن عزيمة الشعب الفلسطيني وإصرار الفريق الوطني، واحتضان القيادة السياسية جعلت من التغلب على هذا التحدي أمراً ممكناً أدى إلى تنفيذ التعداد العام الثاني في الأراضي الفلسطينية بجودة عالية وفق المعايير الدولية، بأيد وبخبرات فلسطينية وقرار فلسطيني مستقل، واستجابة للحاجات الوطنية في شتى المجالات.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلطة الوطنية الفلسطينية

منظمة التحرير الفلسطينية

لقد أسهم التعداد في إعادة الموضوع التنموي على الأجندة الوطنية والدولية في فلسطين، بعد أن تراجع دورها لصالح الأجندة الإغاثية، فالتنمية أهم الدعامات الضرورية لتأسيس مجتمع ديمقراطي، وبناء إنسان حر ملتزم بالمبادئ الوطنية والإنسانية. والإحصاءات الدقيقة والعلمية هي العمود الفقري لوضع خطط تنموية مبنية على أسس سليمة تشكل رافعة لقضايا التنمية وتحقيق الأهداف المعلنة عليها.

لقد أبدى المجتمع الدولي اهتماماً بالغاً بهذا المشروع التنموي وعبر عن اهتمامه من خلال الدعم المادي والفني الذي قدمته بعض الدول الصديقة والمنظمات الدولية. فقد كان لصندوق الأمم المتحدة للسكان مساهمة مادية وفنية جادة، وكذلك صندوق أوبك للتنمية الدولية، وحكومات النرويج وهولندا وسويسرا وأستراليا، والمملكة العربية السعودية ومنظمة الأمم المتحدة للطفولة "اليونيسيف"

إننا إذ نهدي هذا الإنجاز التاريخي الى كل فلسطيني، فإننا نعبر عن تقديرنا وشكرنا لأسرة الجهاز المركزي للإحصاء الفلسطيني والفريق الوطني للتعداد على إصرارهم وعطائهم وتفانيهم في تحقيق هذا الإنجاز.

رام الله: 2008/5/22

محمود عباس

## **Acknowledgments**

**The Population, Housing and Establishment Census (PHC-2007) is the second census conducted by the Palestinian Central Bureau of Statistics (PCBS) since the Palestinian National Authority (PNA) was established in 1994. The PHC-2007 was conducted in a very critical and complicated political, administrative, financial and organizational environment. It could not have been accomplished without the generous support of a number of friendly countries, international and national institutions and personalities.**

**The implementation of the PHC-2007 was co-financed by the PNA, United Nations Population Fund (UNFPA), the Core Funding Group (CFG) of PCBS (Norway, Netherlands, and Switzerland), OPEC Fund for International Development (OFID), Australia, and the United Nations Children's Fund (UNICEF), and the European Union (EU).**

**PCBS would not have been able to implement the PHC-2007 as a national project in such complicated circumstances without the important contribution made by the PHC-2007 National Higher Committee, the committees in the governorates, publicity campaign committees, and many other official and popular supporting committees and bodies.**

**We would also like to highlight the outstanding efforts made by the Census National Director, Executive Director, and all census national team members to plan, manage, implement, supervise, monitor, and coordinate census activities: senior assistants of the national and executive director, census directors in the governorates and their assistants, coordinators of the publicity campaign and their assistants, field supervisors, field observers, enumerators, administrators and other team members.**

**Printing of this document has been produced with financial assistance of the European Union. The contents of this document are the sole responsibility of the PCBS.**

**PCBS extends its deep thanks to all of these personalities and institutions for the tremendous efforts they exerted to bring the second Palestinian census to light.**

## **Preface**

The PHC-2007 is an important pillar of the national development process and a primary prerequisite for socioeconomic planning. Furthermore, it helps reinforce the Palestinian sovereignty on the ground. Countries around the world usually conduct censuses every decade according to the degree of population stability, the amount of potential change in the demographic characteristics and the availability of financial resources.

Realizing the importance of filling the gap regarding society's statistical needs on the current situation in the Palestinian Territory, PCBS conducted the first national population, housing and establishment Census in 1997. PHC-2007 was conducted for legal, development and statistical considerations. Success was strongly attributed to the huge efforts exerted by the national census team and the continuous support of the Palestinian leadership.

The main objective of the PHC-2007 is to update statistical data on the Palestinian population, housing units, economic establishments and agricultural holdings, and to provide small area statistics to planners and decision makers. PHC-2007 will contribute to realizing a balanced and comprehensive development in all sectors.

PHC-2007 was designed and implemented in accordance with United Nations principles and recommendations of the Population and Housing census taking into consideration the local Palestinian needs. Special attention was given to affording complete and adequate data on the size, structure, distribution and characteristics of the demographic, economic and social components of the Palestinian population; the characteristics of housing units; the number and characteristics of the economic establishments and making an inventory of agricultural holdings. Consequently, obtained statistical data will foster and support the role and efficiency of planning both on the national and local government levels.

As part of PCBS's efforts to provide users with the census results as soon as possible, the national census team made every possible effort to fulfill that, we were able to publish the preliminary results of the census five weeks after the end of the census fieldwork events. This is considered record time compared to other countries. In addition, the final results of the buildings and establishments data for the Palestinian Territory were also disseminated. To continue this work, this report is a part of the detailed reports about the population at the governorate level.

PCBS and the national census team are pleased to present this report containing the census final results in the Jericho & Al Aghwar Governorate which has been processed. We hope that it will be a reference for all planners, decision makers and policy makers in the public and private sectors and for civil society institutions.

## Concepts and Definitions

### Introduction

The definitions used in the PHC-2007 are based on the de-facto concept according to the United Nations standard concepts and definitions in order to be consistent with the 1997 census and to ensure comparability. The following concepts and definitions were used in this report:

### Population Census:

The process of collection, classification, processing, analysis, assessment, dissemination of statistical data on the number of population and their distribution by basic demographic and socio-economic characteristics in a specific reference period and within the boundaries of a specific geographic area.

### Collective Household:

This refers to the place constructed for the residence of a group of individuals, who live therein and benefit from the services it provides. The collective household may be comprised of one building or more or one housing unit or more. Examples of collective households include hotels, hostels, elderly and orphans homes, psycho-therapy clinics and hospitals, collective households for university students, collective living quarters (camps) at the passages, and housing units of priests and nuns in the monasteries and churches (who do not have other households).

### Household:

One person or a group of persons with or without a household relationship, who live in the same housing unit, share meals and make joint provision of food and other essentials of living. In PHC-2007, the household includes:

1. Household members found in the housing unit on the night of 01/12/2007.
2. Visitors living outside the Palestinian Territory but who spent the night of 01/12/2007 in the housing unit of the household (relatives and non-relatives).
3. Visitors from the Palestinian Territory who, as a whole household, remained for all of the enumeration period 1-16/12/2007.
4. Servants and other workers living usually within the household who spent the night of 01/12/2007 with the household.
5. New births born prior to the night of 01/12/2007 and still alive, irrespective of whether they were within the household or in the hospital.
6. Household members who spent the night of 01/12/2007 with the household and died after that night.
7. Household members who usually live in the housing unit but were not available on the night of 01/12/2007. This category includes:
  - Household members who spent the night of 01/12/2007 with another household inside the Palestinian Territory.
  - Household members working at night 01/12/2007 in factories, hospitals, airports, etc.
  - Individuals who spent the night of 01/12/2007 traveling in public ways inside the Palestinian Territory.
  - Fishermen who spent the night fishing in the regional waters.
  - Members of internal security forces, and civil defense forces irrespective of where they spent the night of 01/12/2007.

- Palestinian household members living usually within the household and who are holding an ID card, but who were abroad less than one year for temporary reasons (tourist, visit, pilgrim or any other reason).
- Palestinian household members living usually within the household but who were absent during the night of 01/12/2007 due to urgent causes including hospitalization, detention, etc.
- Palestinian household members living usually within the households but who were absent during the night of 01/12/2007 due to their stay in a hotel in the Palestinian Territory.
- Students studying abroad regardless of the length of their stay.
- Students studying in Palestinian universities, institutes and other educational institutions irrespective of place of existence.
- Household members detained in Israeli prisons.

**The following were excluded from households:**

- Persons who died before the night of 01/12/2007.
- Persons who were born after the night of 01/12/2007.
- Persons who stayed during the counting in elderly homes, orphans homes, psychotherapy clinics and hospitals, and other collective households in the Palestinian Territory.

**Type of households that underwent enumeration are divided into:**

**Private Households:** The households included in the aforementioned definition of the household.

**Collective (Institutional Households):** This refers to the households enumerated in the previously mentioned collective households.

**Palestinian Household:**

This refers to the private household whose head holds Palestinian nationality. As for the non Palestinian household, this refers to the household whose head holds non Palestinian nationality irrespective of the nationality of other household members.

**Special types of Households:**

**A one-person-household:** This refers to the household comprised of one individual.

**Nuclear household:** This refers to the living household comprised of a couple only; a couple and a son or a daughter (not adopted son or daughter) or more; or a male head of a household with a son or a daughter or more; or a female head of a household with a son or a daughter or more. It is worth noting that no other relatives or non-relatives live with this household.

**Extended Household:** A household of at least one nuclear household together with other relatives.

**Composite Household:** Refers to a household consisting of at least one nuclear household with other non-relatives.

**Average Household Size:**

This refers to the average number of household members calculated through dividing the total number of members for a certain category by the number of households for that particular category.

**Sex:**

Divided into male and female.

**Age in Completed Years:**

The completed age in years of the person enumerated, which is the difference between the date of birth and the survey reference period.

**Original Nationality:**

This refers to the political identity of the individuals, as Palestinian, Jordanian, Egyptian, Brazilian, French, etc.

**Refugee Status:**

This status relates to the Palestinians who were forced to leave their land in the Palestinian Territory occupied by Israel in 1948. It applies to their male sons and grandchildren.
