بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلطة الوطنية الفلسطينية

منظمة التحرير الفلسطينية

بسم الله الرحمن الرحيم

تقديم من سيادة الرئيس محمود عباس "أبو مازن"
رئيس السلطة الوطنية الفلسطينية

يعتبر التعداد العام للسكان والمساكن والمنشآت ركناً أساسياً من أركان النظام الإحصائي الرسمي في أي دولة، حيث يأتي تنفيذه خلال عام 2007 استحقاقاً قانونياً وتنموياً ووطنياً وسيادياً، ويمثل تنفيذه لبنة أساسية في عملية بناء الدولة وإرساء أسس التخطيط السليم بمعايير علمية نظراً لما يوفره من إحصاءات دقيقة وتفصيلية لكافة نواحي الحياة، ويساهم في بناء الدولة الفلسطينية وإنجاز الاستقلال السياسي والاقتصادي والاجتماعي، وتحقيق التنمية.

لقد جاء تنفيذ هذا المشروع الوطني الكبير في ظل ظروف غاية في التعقيد على مختلف الأصعدة، مما جعل تنفيذ التعداد مهمة صعبة تعترضها الكثير من التحديات والأخطار، إلا أن عزيمة الشعب الفلسطيني وإصرار الفريق الوطني، واحتضان القيادة السياسية جعلت من التغلب على هذا التحدي أمراً ممكناً أدى إلى تنفيذ التعداد العام الثاني في الأراضي الفلسطينية بجودة عالية وفق المعايير الدولية، بأيد وبخبرات فلسطينية وقرار فلسطيني مستقل، واستجابة للحاجات الوطنية في شتى المجالات.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلطة الوطنية الفلسطينية

منظمة التحرير الفلسطينية

لقد أسهم التعداد في إعادة الموضوع التنموي على الأجندة الوطنية والدولية في فلسطين، بعد أن تراجع دورها لصالح الأجندة الإغاثية، فالتنمية أهم الدعامات الضرورية لتأسيس مجتمع ديمقراطي، وبناء إنسان حر ملتزم بالمبادئ الوطنية والإنسانية. والإحصاءات الدقيقة والعلمية هي العمود الفقري لوضع خطط تنموية مبنية على أسس سليمة تشكل رافعة لقضايا التنمية وتحقيق الأهداف المعلنة عليها.

لقد أبدى المجتمع الدولي اهتماماً بالغاً بهذا المشروع التنموي وعبر عن اهتمامه من خلال الدعم المادي والفني الذي قدمته بعض الدول الصديقة والمنظمات الدولية. فقد كان لصندوق الأمم المتحدة للسكان مساهمة مادية وفنية جادة، وكذلك صندوق أوبك للتنمية الدولية، وحكومات النرويج وهولندا وسويسرا وأستراليا، والمملكة العربية السعودية ومنظمة الأمم المتحدة للطفولة "اليونيسيف"

إننا إذ نهدي هذا الإنجاز التاريخي الى كل فلسطيني، فإننا نعبر عن تقديرنا وشكرنا لأسرة الجهاز المركزي للإحصاء الفلسطيني والفريق الوطني للتعداد على إصرارهم وعطائهم وتفانيهم في تحقيق هذا الإنجاز.

رام الله: 2008/5/22

محمود عباس

رئيس اللجنة التنفيذية لمنظمة التحرير الفلسطينية

رئيس السلطة الوطنية الفلسطينية

The Population, Housing and Establishment Census (PHC-2007) is the second census conducted by the Palestinian Central Bureau of Statistics (PCBS) since the Palestinian National Authority (PNA) was established in 1994. The PHC-2007 was conducted in a very critical and complicated political, administrative, financial and organizational environment. It could not have been accomplished without the generous support of a number of friendly countries, international and national institutions and personalities.

The implementation of the PHC-2007 was co-financed by the PNA, United Nations Population Fund (UNFPA), the Core Funding Group (CFG) of PCBS (Norway, Netherlands, and Switzerland), OPEC Fund for International Development (OFID), Australia, and the United Nations Children's Fund (UNICEF), and the European Union (EU).

PCBS would not have been able to implement the PHC-2007 as a national project in such complicated circumstances without the important contribution made by the PHC-2007 National Higher Committee, the committees in the governorates, publicity campaign committees, and many other official and popular supporting committees and bodies.

We would also like to highlight the outstanding efforts made by the Census National Director, Executive Director, and all census national team members to plan, manage, implement, supervise, monitor, and coordinate census activities: senior assistants of the national and executive director, census directors in the governorates and their assistants, coordinators of the publicity campaign and their assistants, field supervisors, field observers, enumerators, administrators and other team members.

Printing of this document has been produced with financial assistance of the European Union. The contents of this document are the sole responsibility of the PCBS.

PCBS extends its deep thanks to all of these personalities and institutions for the tremendous efforts they exerted to bring the second Palestinian census to light.

Preface

The PHC-2007 is an important pillar of the national development process and a primary prerequisite for socioeconomic planning. Furthermore, it helps reinforce the Palestinian sovereignty on the ground. Countries around the world usually conduct censuses every decade according to the degree of population stability, the amount of potential change in the demographic characteristics and the availability of financial resources.

Realizing the importance of filling the gap regarding society's statistical needs on the current situation in the Palestinian Territory, PCBS conducted the first national Population, Housing and Establishment Census in 1997. PHC-2007 was conducted for legal, development and statistical considerations. Success was strongly attributed to the huge efforts exerted by the national census team and the continuous support of the Palestinian leadership.

The main objective of the PHC-2007 is to update statistical data on the Palestinian population, housing units, economic establishments and agricultural holdings, and to provide small area statistics to planners and decision makers. PHC-2007 will contribute to realizing a balanced and comprehensive development in all sectors.

PHC-2007 was designed and implemented in accordance with United Nations principles and recommendations of the Population and Housing Census taking into consideration the local Palestinian needs. Special attention was given to affording complete and adequate data on the size, structure, distribution and characteristics of the demographic, economic and social components of the Palestinian population; the characteristics of housing units, The number and characteristics of the economic establishments and making an inventory of agricultural holdings. Consequently, obtained statistical data will foster and support the role and efficiency of planning both on the national and local government levels.

As part of PCBS's efforts to provide users with the census results as soon as possible, the national census team made every possible effort to fulfill it. We were able to publish the preliminary results of the census five weeks after the end of the census field work events. This is considered record time compared to other countries. In addition, the final results of the housing and housing conditions for the West Bank were also disseminated.

We are pleased to present this report as part of the detailed reports about the characteristics of housing and housing conditions at the Governorate level. This report contains the housing census final results in Salfit Governorate.

We hope that it will be a reference for all planners, decision makers and policy makers in the public and private sectors and for civil society institutions.

June, 2009

**Mahmoud Jaradat
Census Executive Director**

Important Notes

1. For more information about the methodology and data quality, please refer to the report titled "Census Final Results- population Report- West Bank " , which is available at: <http://www.pcbs.gov.ps/Census2007/DesktopDefault.aspx?tabID=4181&lang=ar-JO>
2. Population and Housing data are based on the actually enumerated population and the occupied housing units with private households and doesn't include the collectives households and the enumerated population in it.
3. In some tables the total of percentages might not add up to 100% due to rounding.
4. A set of special symbols were used in the tables of this report. The representation of these symbols are:
 - (-) Nil (not found).
 - (0) less than 0.05%.

Concepts and Definitions

The definitions used in the PHC-2007 are based on the de-facto concept as the United Nations standard concepts and definitions stated in order to be consistent with the 1997 census and to ensure comparability. The following concepts and definitions were used in this report

Population Census:

The process of collection, classification, processing, analysis, assessment, dissemination of statistical data on the number of population and their distribution by basic demographic and socio-economic characteristics in a specific reference period within the boundaries of a specific geographic area.

2.1 Geographical, Administrative and Statistical Divisions

According to current administrative divisions, the Palestinian Territory is divided into two geographic regions: the Remaining West Bank and Gaza Strip.

1. **West Bank** is divided into 11 Governorates (Jenin, Tubas, Tulkarm, Nablus, Qalqiliya, Salfit, Ramallah & Al-Bireh, Jericho & AlAghwar, Jerusalem, Bethlehem, and Hebron).
2. **Gaza Strip** is divided into 5 Governorates (North Gaza, Gaza, Deir Al-Balah, Khan Yunis, Rafah).

Locality:

A permanently inhabited place, which has an independent municipal administration or a permanently inhabited, separated place not included within the formal boundaries of another locality.

Locality Type:

Localities have been divided into three types: **Urban, Rural, Camps**

Urban: Any locality whose population amounts to 10,000 persons or more. This applies to all governorates/districts centers regardless of their size. Besides, it refers to all localities whose populations vary from 4,000 to 9,999 persons provided they have, at least, four of the following elements: public electricity network, public water network, post office, health center with a full – time physician and a school offering a general secondary education certificate.

Rural: Any locality whose population is less than 4,000 persons or whose population varies from 4,000 to 9,999 persons but lacking four of the aforementioned elements.

Camp: It refers to any locality referred to as a refugee camp and administered by the United Nations Refugees and Work Agency in the Near East (U.N.R.W.A.).

Enumeration Area:

A group of houses (about 150 housing units) with clear boundaries on the ground, it may constitute one locality or part of a locality.

2.2 General Definitions

Housing Census:

This is the overall process for the collection, classification, processing, analysis, evaluation and dissemination of statistical data and provides for the preparation and distribution of the houses by various characteristics of the houses in the reference period and within certain specific geographic area.

Housing Unit:

A building or part of a building constructed for one household only, with one or more independent entrance leading to the public road without passing through another house.

Collective Households:

It refers to the place constructed for the residence of a group of individuals, who live therein and benefit from the services it provides. The collective household; it may be comprised of one building or more or one housing unit or more. Examples of collective households include hotels, hostels, elderly and orphans homes, psycho-therapy clinics and hospitals, collective households for university students, collective living quarters (camps) at the passages, and housing units of priests and nuns in the monasteries and churches (who do not have other households).
