Statisticians

The 7th International Conference of Union of Arab Statisticians - Ramallah, Palestine 07-09/07/2020

Third Announcement

The Union of Arab Statisticians announces the organization of its Seventh International Scientific Conference in cooperation with the Palestinian Central Bureau of Statistics (PCBS) in the State of Palestine **under the auspices of the H.E. the Prime Minister** during **07-09/07/2020**, under the slogan "**Activating Statistical Studies in the Arab World towards Achieving the Strategic Development Goals**". The first session of the conference would be an official opening session and will be followed by a panel discussion session on the experiences of the Arab countries in implementing sustainable development goals. The conference will consist of four main themes, each of which will be divided into six sub-themes, and will be covered throughout the conference.

The Union of Arab Statisticians and the Palestinian Central Bureau of Statistics cordially invite all regional and international organizations, Arab statistical offices, Arab universities, **researchers, statisticians, policy makers and development programs to provide moral/technical support to the conference** through the participation of statisticians, specialists, and university academicians with scientific research studies. In addition to circulating the conference's announcements and its themes as well as the participation form for the staff of the Arab and International National Statistical Offices and Arab and International universities, decision-makers and related institutions. Stressing the commitment of the Conference to add the logo of the participating and supporting agencies on all conference's literature and documents.

The full research studies, whether in Arabic or English and printed electronically on MS.WORD using Times New Roman, font size (12), one column, maximum 20 pages should be submitted by 12/12/2019, in addition to submitting a summary in Arabic and English to the Conference Scientific Committee through the below email addresses, where it would be evaluated and arbitrated scientifically as a prerequisite for acceptance and for the purpose of presentation and publication in the conference volume. The Union of Arab Statisticians in coordination with one of the donors that expressed its willingness to help in securing needed funds to cover some of their traveling and participation expenses (first author only). On the margins of the conference there would be certain visit tours to different historical places.

The Union of Arab Statisticians in coordination with the Palestinian Central Bureau of Statistics has pledged to coordinate with the concerned authorities in order to obtain entry stamps. They also pledged to receive the researchers in the capital Amman and accommodation in Amman for one night and then they will move to Palestine through tour buses.
