

**Finance and Insurance Survey in the  
Palestinian Territory 2010**

**48 Enterprises operate in financial  
intermediation activities and employ  
6618 persons**

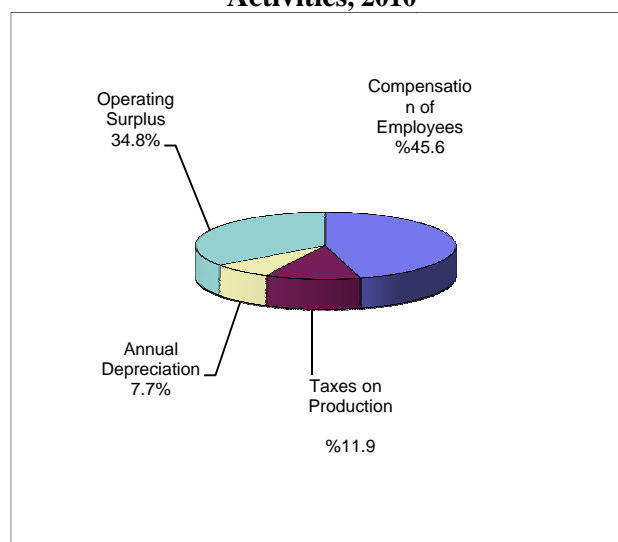

This survey provides statistics on the number of institutions operating in financial intermediation, the number of employees and their compensations, output value, intermediate consumption, gross value added with its various components, and the gross fixed capital formation of the financial sector. This survey constitutes the basic foundations for the compilation of Palestinian National Accounts and meets the various needs and expectations of users in both private and public sectors.

According to the main results, there were 48 enterprises operating in this field in year 2010 with 6,618 employees: 4,848 of them male and 1,770 female. The value of employee compensations was US\$ 140.3 million. The total value of output was US\$ 403.7 million for 2010 and the intermediate consumption was US\$ 96.4 million. The gross value added was US\$ 307.4 million.

The results indicate that gross fixed capital formation was US\$ 27.5 million and net taxes on production were US\$36.7 million. The operating surplus was US\$ 107.1 million, while the value of depreciation on fixed assets during the year was US\$ 23.3 million.

To compare the data for 2010 with that of 2009, output had increased by 17.1% compared with 2009. The value of intermediate consumption increased by 30.5% compared with 2009. The gross value added had increased by 13.5% compared with 2009.

**Percentage Distribution of the Value Added for  
Operating Enterprises in Financial Intermediation  
Activities, 2010**
