Palestinian Industrial Production Index, February 2011

The overall Industrial Production Index (IPI) in the Palestinian Territory with its base month (January 2011=100) reached 100.18 in February 2011. The IPI indicates an increase by 0.18% compared with January 2011.

The rise of the Industrial Production Index for February is traced to changes in the quantity of the following main activities compared with the previous month:

- | | |
|--|---------|
| - Mining and quarrying (Relative Share = 4.6%): | + 1.76% |
| - Manufacturing (Relative Share = 80.5%): | + 1.61% |
| - Water Supply & Electricity (Relative Share = 14.9%): | - 8.06% |

Note: Relative share for the main industrial activities represents the percentage distribution of value added (VA) for the industrial institutions in 2009 in addition to the VA of olive presses.
